## **The Mathematical Mind: Infinity and Beyond**

**July 22-26**

**Grades: Rising 7th-9th**

**Time: 8:30 a.m.-11:30 a.m.**

**Cost: \$150 or combo for \$250**

**Instructor: Geoff Birky**

This course is for mathematically talented and eager students. We'll look at ways of understanding infinity, including different "sizes" of infinity, play with intriguing infinite number patterns, and do some number theory. Along the way, we'll encounter deceptively simple looking math problems that no one has ever solved, and also develop skills useful for math competitions. Stay for the full day and register for The Mathematical Mind: Strange Numbers and Operations.

## **Steam - Arts and Engineering**

**July 22-26**

**Grades: Rising 2nd -5th**

**Time: 12:30 p.m. - 3:30 p.m.**

**Cost: \$175 or combo for \$325**

**Instructor: Ros Won**

Summer campers will focus on the Arts and Engineering part of STEAM. We will participate in terrific hands-on activities such as making bubble paper and designing bridges with gumdrops and toothpicks. Bring a lunch and join us for the morning session of STEAM – Science and Technology.

## **The Mathematical Mind: Strange Numbers and Operations**

**July 22-26**

**Grades: Rising 7th-9th**

**Time: 12:30 p.m. - 3:30 p.m.**

**Cost: \$150 or combo for \$250**

**Instructor: Geoff Birky**

This course is for mathematically talented and eager students. We'll create unusual number systems and operations, then see how they work, delving into some of the ideas of abstract algebra that are also being used to understand our universe. At the same time, we'll develop skills useful for math competitions. Stay for the full day and register for The Mathematical Mind: Infinity and Beyond.

---

## **Games, Games and More Games**

**July 29-August 1 (Monday - Thursday)**

**Grades: Rising 2nd - 5th**
